**About the scholarship:** The **Karen Gersten-Sternheim Memorial Scholarship** is awarded annually by the Southern California Chapter to provide assistance to a student who seeks a career in special librarianship.

The award was established in May of 1993 at a special board meeting called by **chapter President John Shea** shortly after Karen's death. The first scholarship was awarded in 1996.

**Karen, a librarian in the UCLA Management Library, was an active supporter of student development, dedicating much of her career to the success of library school students.** The Southern California Chapter has committed to sustaining her legacy of service and support of students through this scholarship.
